SUMMARY

Business analyst with four years of experience in operations reporting for banking and distribution. Strong in Excel and Power BI, with growing SQL skills.

EXPERIENCE

Operations Reporting Analyst, Marina Harbour Bank | Singapore | Jan 2024 - Present

- Maintain weekly and monthly operations reports in Excel for the retail banking service team, using pivot tables, XLOOKUP and Power Query.
- Built 4 Power BI dashboards tracking branch queue times and service requests, used by 15 branch managers.
- Write SQL Server queries to extract service request data, mostly single-table filters and groupings.
- Explain month-on-month changes in service levels to the operations manager, including a staffing recommendation for two branches.

Business Operations Executive, Clementi Health Supplies | Singapore | Jul 2022 - Dec 2023

- Prepared weekly sales and inventory summaries in Excel for the sales director.
- Cleaned the product master list, removing about 1,200 duplicate item codes.
- Worked with the warehouse team to investigate stock count differences.
