SUMMARY

Frontend engineer with five years of experience building accessible React interfaces for health and media products.

EXPERIENCE

Frontend Engineer, Kembangan Health Tech | Singapore | Apr 2023 - Present

- Build patient booking and records screens in React and TypeScript, used by about 50,000 patients a month.
- Led an accessibility review against WCAG 2.1 AA and fixed over 120 issues, including screen reader labels and keyboard navigation.
- Write component tests with Jest and React Testing Library, and end-to-end tests with Playwright.
- Integrate with GraphQL APIs using Apollo Client.
- Wrote a small Node.js service that combines two backend APIs for the booking screen.

Frontend Developer, Holland Village Media | Singapore | Jun 2021 - Mar 2023

- Built responsive news pages in React for mobile and desktop.
- Reduced homepage bundle size by 35% with code splitting and lazy loading of images.
- Worked with designers in Figma to build a shared component library in Storybook.

EDUCATION

Bachelor of Engineering in Computer Science, GPA 3.9 / 5.0

Nanyang Technological University | Aug 2017 - May 2021

Relevant coursework: Human Computer Interaction, Web Application Design

SKILLS

Languages: TypeScript, JavaScript, HTML, CSS

Frameworks: React, Next.js, Node.js

Testing: Jest, React Testing Library, Playwright

Tools: GraphQL, Apollo, Storybook, Figma
