SUMMARY

Senior frontend engineer with almost seven years of experience leading React teams for travel and marketing websites.

EXPERIENCE

Senior Frontend Engineer, Siloso Travel | Singapore | May 2022 - Present

- Lead a team of 4 frontend engineers building the booking site in React, TypeScript and Next.js.
- Improved mobile Largest Contentful Paint from 4.1 to 2.2 seconds by fixing image loading and server rendering.
- Set accessibility standards for the team and added automated axe checks to the CI pipeline.
- Introduced Cypress end-to-end tests for the checkout flow.
- Work with designers to maintain the design system in Figma and Storybook.

Frontend Developer, Clarke Quay Creative | Singapore | Jan 2020 - Apr 2022

- Built responsive marketing websites and campaign pages in JavaScript and React.
- Connected pages to REST APIs for content and forms.
