SUMMARY

Mobile engineer with five years of experience building Android apps and the backend services behind them.

EXPERIENCE

Mobile Engineer, Geylang Eats | Singapore | Feb 2023 - Present

- Build Android app features in Kotlin for about 200,000 monthly users.
- Built two backend services in Kotlin with Spring Boot that provide REST APIs for order tracking.
- Designed MySQL tables for order status history.
- Write unit tests with JUnit and set up the app's GitHub Actions build pipeline.

Android Developer, Yishun Games Studio | Singapore | Aug 2021 - Jan 2023

- Built Android game menus and in-app purchase screens in Kotlin.
- Fixed crashes found through Firebase Crashlytics reports.

EDUCATION

Bachelor of Engineering in Computer Science and Design, GPA 3.8 / 5.0

Singapore University of Technology and Design | Sep 2017 - Aug 2021

Relevant coursework: Software Construction, Mobile Application Development

SKILLS

Languages: Kotlin, Java, SQL

Frameworks: Android, Spring Boot

Tools: MySQL, JUnit, GitHub Actions, Firebase
